Windows 7 Menu Icons Screenshot: Windows 7 Menu Icons Reviews: 5 out of 5 by tony (verified user) beautiful icons This is an amazing collection of great looking icons. I was skeptical at first, but was very pleasantly surprised. Beautiful and accurate in color, this is a keeper in my collection. I highly recommend this product. 5 out of 5 by Earth (verified user) Highly Recommended This icons set is really great with very very beautiful looking icons to choose from. The number of options available out there is tremendous, but the quality of this set easily tops them all. 5 out of 5 by Elwr (verified user) Highly recommended This set is beautiful and accurate in its design. 5 out of 5 by BT (verified user) Awesome This icons set is awesome. I needed lots of icons to complete my project. I was looking for quality icons and this certainly delivers. I've used this set with style. it should be one of my standard collection. 5 out of 5 by Weikoh (verified user) Highly recommended The quality and diversity of this set of icons is unbelievable. The team behind have went so far as to provide 8 separate color variations for every

Centering a View with a TextView and ImageView inside a FrameLayout I would like to center a View with a TextView and ImageView inside a FrameLayout but the whole thing always end up on the top left corner. How could I center it? I tried center\_horizontally() and center\_vertically() and a few other methods but none of them worked. Here is my code:
